

Flemington is a wonderful place to shop. On this map you will find the names and locations of more than 60 shops, all within walking distance of each other, all brimfull of beautiful merchandise, and all able to offer you first quality prices much lower than you might find in high-rent malls. Add to this the attraction of strolling through one of America's most beautiful small towns, and you will be glad you came.

To learn more about the architectural significance of Flemington, site of a Revolutionary Raid and of the famous Lindbergh-Hauptmann Trial, you may purchase a Visitor's Guide at the Bookswap, 7 Mine Street.
