Bargains Galore!

Never before has something so distinctive been so practical.

Sand molding

is a metal forming technique perfected before the American Revolution. The Wilton Company has combined that old-world craft with the "Armetale" alloy, a modern blend of ten different metals with charm, durability and practicality.

The result is exquisite dinnerware, accessories and giftware. Armetale® products won't break, crack, chip or dent. They will go safely from oven to table, and are non-toxic and safe to eat and drink from. "Armetale" products impart the warmth of fine pewter and the elegance of sterling . . . yet beautifully practical. Each piece is individually cast and unique — truly a work of art!

Huge Selections!

Bargains by the Barre!ful.

If you've wanted to start a collection of Wilton Armetale pieces, or add to a collection you presently have, you can do it here and save at the same time. We have the largest Wilton Armetale display in

the area. A huge selection of Bruce Fox Design™ specialty items, too.

You'll find hundreds of bargains waiting for you at our factory outlet. Everything is sold on a first-come, first-served basis, so shop often.

WILTON (RWP) ARMETALE®

Bank Americard/Visa & MasterCard accepted

See a live metal pouring demonstration in our miniature foundry.

If you've never seen metal pouring before, this alone will be worth a visit to our store. Live demonstrations daily except Tuesday and Saturday. It's a real art you won't want to miss.

**EDUCATIONAL
DEMONSTRATIONS**
