

Delaware Water Gap

DELWARE WATER GAP

Pocono Mountains Area, Pennsylvania & New Jersey

This aerial view shows the Delaware River winding through the famous "Gap." The Delaware River Bridge, which carries U. S. Route 611 and Interstate Route 80 traffic to and from the Pocono area, can be seen crossing the Delaware connecting Pennsylvania and New Jersey.

Post Card

My dear Mr. & Mrs. Vaudier
I hope you will like my post card. It is a picture of the Delaware River flowing through the Pocono Mountains. The bridge across the river is the Delaware River Bridge, which carries U. S. Route 611 and Interstate Route 80. The bridge is located in the middle of the Pocono Mountains, which are a part of the Appalachian mountain range. The river flows through a narrow gap between the mountains, creating a beautiful landscape. I hope you will enjoy the view.

Very truly yours,
W. H. Doster
Stroudsburg, PA 18301
