BLACK RIVER & WESTERN R.R.

FUN FOR ALL

Attractions.....

When you visit us you will enjoy the following wonderful attractions:

Locomotive #60; built in 1937 for the Great Western Railroad in Colorado, she was purchased by the Black River and Western in 1964. Our engineers and firemen are proud of her excellent condition and spend many hours keeping her "Shiny as New".

Locomotive #148; built by Alco at Richmond, Virginia for the Florida East Coast Railroad, she saw service on the Key West Extension. This locomotive was purchased in 1969 from the United States Sugar Corporation.

Private Car #105; built in 1895 for the Canadian Northern (later the Canadian National) Railroad's President. She is the oldest wooden "Presidents Car" in use today.

Our coaches, some of which date back to 1875, have been restored to their original condition, with red plush seats and all.

At Ringoes you will be able to roam through our restored 1854 station and see the many interesting exhibits in the museum car.

Plus many many more interesting things to do and see during your visit.

GROUP CHARTERS AVAILABLE

BLACK RIVER

the "ROAD"

Authentic.....

The Black River and Western Railroad is not an amusement park reproduction, nor a narrow gauge railroad, but a full size, authentically restored standard gauge steam railroad.

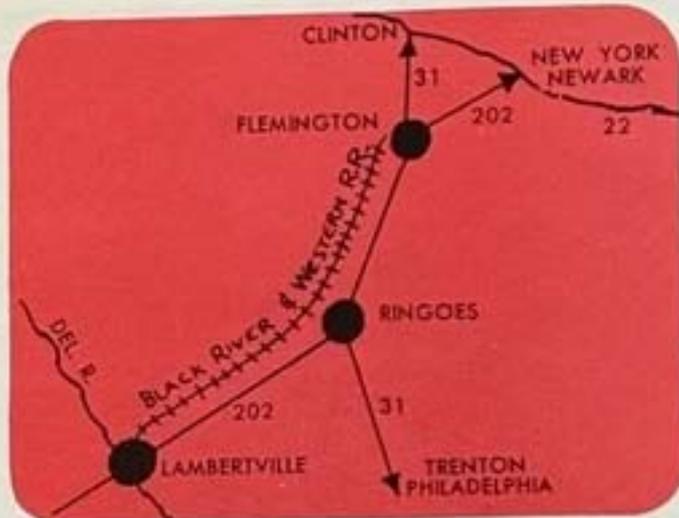

Educational.....

The rolling stock and stations are rich in the history and tradition of early America. What better educational instrument could there be?

Location.....

Conveniently situated midway between Philadelphia and New York, the Flemington Depot is located at Turntable Junction, directly in the center of town. The Ringoes Station, is located west of Ringoes on County Route 579, 3/4 mile from the junction of highways 202 and 31.

REST ROOMS AT RINGOES
